

DURALINER™

POND LINER UNDERLAYMENT

Mechanically bonded for a strong, flexible, and stable fabric structure

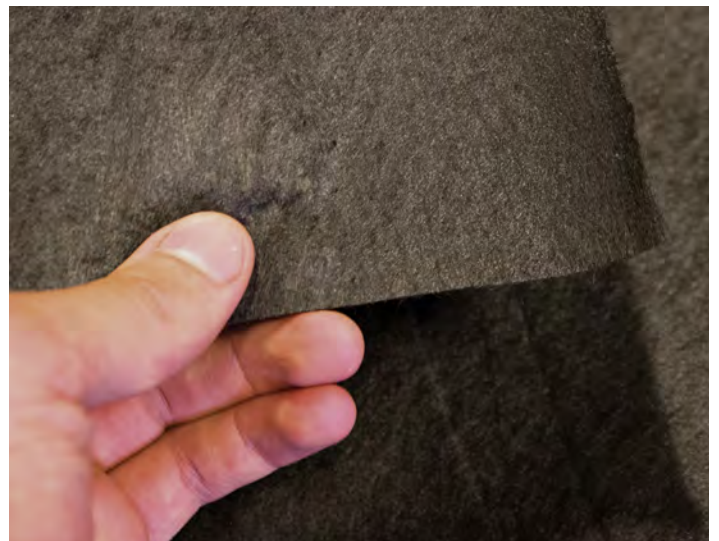

- Non-woven geotextile fabric in 4 ounce and 10 ounce weights
- Resistant to chemicals and biological organisms commonly found in soils
- Provides additional tear and puncture protection from roots, stones or other sharp objects
- Can also be used on top of liner to protect from punctures when adding gravel
- Fish and plant friendly
- Available in 5' and 10' widths x 360' length or may be cut to length up to 359
- **20 year limited warranty**

4 OZ. UNDERLAYMENT

Part #	Roll Width	Length	Approx. Ship Weight	UPC/GTIN
FPU	5' or 10'	any	-	-
PLU5360	5'	360'	65 lbs. / roll	850056872829
PLU10360	10'	360'	125 lbs. / roll	850056872836

10 OZ. UNDERLAYMENT

Part #	Roll Width	Length	Approx. Ship Weight	UPC/GTIN
FPU10	5' or 10'	any	-	-
PLU10-5360	5'	360'	130 lbs. / roll	850056872843
PLU10-10360	10'	360'	255 lbs./ roll	850056872850

DURALINER™

POND LINER UNDERLAYMENT

SPECIFICATIONS

Tests / Properties	Unit	Test Method	DuraLiner™ 4 oz. Underlayment Values	DuraLiner™ 10 oz. Underlayment Values
Content	-	-	Polypropylene	Polypropylene
Mass Per Unit Area	GSM	AST MD 5261	130	320
Thickness	mm	AST MD 5199	1.2	2.7
Tensile Strength - CD	KN/m	AST MD 4595	5.5	18
Tensile Strength - MD	KN/m	AST MD 4595	4.5	16
Elongation @ Break	%	AST MD 4595	50-95	50-75
Grab Tensile Strength - CD	N	AST MD 4632	240	900
Grab Tensile Strength - MD	N	AST MD 4632	230	800
CBR Puncture Resistance	N	AST MD 6241	900	3200
Tear Strength	N	AST MD 4533	155	450
Hydraulic Properties				
Permeability	Lt/m2/Sec	AST MD 4491	240	95
AOS	Microns	AST MD 4751	200	<75
UV Resistance	%	AST MD 4355	70	70

The above values for DuraLiner™ Underlayment are average roll values in which all properties are having ±10% tolerances. Water permeability, elongations are having ±30% tolerance and AOS have ±30%.
