

DELUXE SKID MOUNTED POND FILTRATION SYSTEMS

SMF6000

Built with EasyPro's Innovation, Quality and Experience!

Choose from four in-stock systems for ponds up to 10,000 gallons or we can build a system customized to your project specifications.

Plug and Go!

We've combined the best of EasyPro's products into four **plug-and-go** pond filtration systems.

Effective biological & mechanical filtration that's faster to install than any other system on the market. Simply plumb your incoming and outgoing water lines, plug it in and you're in business!

Each Skid Mounted System is manufactured and pressure tested in our facility before shipping
